

COVID-19 POLICIES

It is our utmost priority to keep you and other clients healthy during the COVID-19 pandemic. To do so, I ask that you comply with the instructions on the day of your appointment.

Dellia Studio Photography is a home studio. We limited the number of appointments to 1 per day and three times per week to avoid many exposures. So, we can ensure that everywhere is clean, sanitized, and safe for our little clients after every visit. The infant station is in a separate room, and no outdoor shoes are allowed there.

Masks are mandatory, and these are the following rules.

- ✓ Please wear a mask to cover your nose and mouth for your appointment.
- ✓ Please do not have anyone accompany you to your appointment. I appreciate your patience and understanding during these unprecedented times.
- ✓ If you have experienced any of the following symptoms within the last two weeks, please consider rescheduling your appointment. (having fever, shortness of breath, sore throat, red or purple spots on your toes).
- ✓ If you are ill or exposed to someone sick in your family or known contact with someone who has recently tested positive for COVID-19, please consider rescheduling your appointment.

We appreciate your patience and understanding during these unprecedented times.
